PROFILE

- I am a dedicated Computer Science student with a solid foundation in algorithms, data structures, and problem-solving. I have actively participated in competitive programming, including the International Collegiate Programming Contest (ICPC), where I have honed my skills in tackling complex problems under time constraints. My passion for coding drives me to continuously improve and expand my knowledge in the field.

EDUCATION

Graduation Year

Computers and Information

Oct 2021 – Jul 2025 | Minuf, Egypt

GPA : 3.03

COURSES

Html & CSS

Jonas Schmedtmann

- A comprehensive **HTML and CSS course** is designed to teach the foundational skills necessary for building and styling web pages. HTML (HyperText Markup Language) and CSS (Cascading Style Sheets) are fundamental technologies for web development. This course typically covers everything from basic concepts to advanced techniques for creating well-structured, visually appealing websites.

JavaScript

Jonas Schmedtmann

- A comprehensive **JavaScript course** covers a wide range of topics from the basics of the language to advanced concepts and best practices. JavaScript is a versatile programming language used for both client-side and server-side development, and mastering it is essential for modern web development.

PROJECTS

Kasper Template

- The **Kasper template** from **Elzero Web School** is a clean, modern, and responsive HTML template designed for portfolio websites. It is a front-end project that emphasizes simplicity and ease of customization. The template's layout is minimalistic, offering a professional and elegant design suitable for personal portfolios, freelance work showcases, or small business sites

World Template

- **Template World** from **Elzero Web School** is a more dynamic and visually engaging web template compared to the simpler ones like Kasper. It features a multipurpose, modern design with a focus on interactivity, animations, and a clean user experience. This template is often used for businesses, portfolios, or service websites, providing an elegant and professional look.

Clinic

A **Clinic for Detecting Patients** (or more commonly referred to as a **Diagnostic Clinic**) is a healthcare facility focused on the early identification and assessment of diseases, conditions, or disorders through various diagnostic tests and evaluations. These clinics serve as the frontline in preventive medicine, helping detect potential health issues before they become serious. The primary goal is to offer comprehensive diagnostic services for accurate and timely detection, enabling early treatment and better patient outcomes.

Trips

- A **Trips Template** built with **Bootstrap** is typically designed for travel agencies, tour booking websites, or individuals offering vacation packages and travel-related services. This kind of template utilizes Bootstrap's responsive grid system and components, ensuring that the website is fully responsive and adaptable to different screen sizes. It is focused on delivering a user-friendly experience for browsing, selecting, and booking trips or tours.

React

Jonas Schmedtmann

- A comprehensive **React course** focuses on teaching the React library, which is widely used for building user interfaces, particularly single-page applications (SPAs). The course typically covers everything from the basics of React to more advanced concepts and practical applications.

C++

DR Mostafa Saad

- A **C++ course** generally covers the fundamental to advanced concepts of the C++ programming language, which is widely used in systems programming, game development, and competitive programming.

E-Commerce

- **E-commerce** (short for **electronic commerce**) refers to the buying and selling of goods or services over the internet. It encompasses a broad range of business activities, from consumer retail shopping to online marketplaces, digital services, and business-to-business transactions. E-commerce allows businesses and consumers to conduct transactions without needing a physical store, making it one of the most popular forms of commercial activity in today's digital world.
